Listing of Claims

1. (Currently Amended) A broadcast program recording and playing apparatus comprising:
  - program management means for managing a database that stores program information for broadcast programs;
  - transmission means for transmitting the program information stored in the database to an electronic apparatus using wireless communication;
  - control means for controlling, recording and playing broadcast programs in accordance with received selection information;
  - determination means for determining whether the selection information indicates information that has been recorded previously by the apparatus having functions of recording and playing broadcast programs and for designating a point for which to begin playback when the determination means determines the information has been recorded previously as a function of the selection information; and
  - switching means for switching a wireless communication unit between communication using a public circuit based on a spread spectrum communication system and short-distance wireless communication based on the spread spectrum communication system.
